Town Council Meeting

The adjourned meeting of the Blairmore town council held on Friday night last was attended by the full council.

The minutes of last regular meeting were on motion approved as read, and communications were received from Messrs. Nash & Savers, auditors, Edmonton; John Perrie, deputy minister of municipal affairs; Sun Life Assurance Co., Calgary; Standard Bank, and Messrs. Nuy & James, Regina; the latter three in connection with debentures past due.

Messrs. Nash & Savers applied for the position of official auditors for the town. Letter ordered filed.

Communications re bonds were referred to finance committee and secretary for attention.

Communication from the department of municipal affairs was in reply to that of the secretary-treasurer of recent date, forwarding copy by-laws No. 61 and 62, proposed to be submitted to the ratepayers at the forthcoming municipal election, for the department's approval. Mr. Perrie asked that copy of contract for purchase of light system be referred immediately to the Board of Public Utilities Commissioners for their authorization before being submitted to the vote of the ratepayers.

The auditors' report for the three months ended September 30th and the ten months ended October 31st was read. According to the report some \$30,000 in tax arrears were still unpaid, and of the current levy of \$8,500 less than \$3,000 had been collected to date.

The following accounts were ordered paid if declared o.k. by the respective committees: Mo-

Blairmore Red Cross Notes

The local branch of the Red Cross Society is planning for a whist drive, to be held in the dining room of the Comopolitan hotel on Tuesday night, December 4th, at eight o'clock. The entire proceeds will be used for a Christmas treat for the boys at the Sanatorium. The surrounding towns are all providing their share of this treat and we feel sure that Blairmore will respond nobly to the call. Come out for a social evening and help make Christmas a happier time for the boys. Tickets 50c.

Our regular weekly meetings are held each Tuesday at the home of Mrs. Jinet and workers are always needed. Membership is not necessary. Come if you have any sympathy with the work or the cause.

Liberal Meeting

Held at Coleman

Probably the most enthusiastic political meeting ever held in The Pias was that conducted in the Pias hall at Coleman on Monday night by D. R. McIvor, the Liberal candidate for Macleod riding, assisted by Mr. J. E. Gillis. Although the meeting was called at very short notice, over one hundred electors were present, representing in equal proportion both sides of the political fence. The chair was occupied by Dr. Olivier, who introduced Mr. Gillis as the first speaker of the evening. Mr. Gillis outlined briefly the policy of former Laurier administrations in comparison with those of the Bordenites, and drew conclusion that no such thing as a union government was in existence since both the Liberal and Conservative parties were recognized as separate and independent and intact.

Mr. McIvor spoke at great length and received almost continuous applause for his statements of facts as he found them. At the conclusion of the meeting three cheers went up for McIvor and three more for Laurier and the meeting closed with the singing of the national anthem.

Sheep Raising

The Scarcity of Sheep in Canada Should Be Remedied

In Manitoba sheep raising has become a craze. The minister of agriculture of that province is conferring with the Ontario minister of agriculture to see if he can get a supply of sheep for breeding purposes. At first it was thought "it would be plenty to spare in Ont.," but it turns out that Ontario has hardly more than she needs for herself. In the United States the decline in the industry has been even greater than in Canada. Now that Canadian farmers are in the mood to go into the industry, the more largely we should think the best source of supply would be Australia. True, there is a great lack of courage for Australian wheat. But in view of the rapidity with which sheep multiply, exceptional means might be taken to bring them from the country in which there is a surplus to one in which they are at a premium.—Hamilton Spectator.

The Proven Asthma Remedy.—Since asthma existed there has been no lack of much heralded remedies, but they have proved short lived and worthless. The ever-growing remedy of Dr. J. D. Kellogg's Asthma Remedy has given it a place in the field of medicines which no other can approach. It has never been pushed by sensational methods, but has simply gone on effecting relief and making new converts.

Work Remembering
From President Wilson's Letter to the People

"The object of this war is to deliver the free peoples of the world from the menace and the actual power of a vast military establishment controlled by an irresponsible government, which, having secretly planned to dominate the world, proceeded to carry out without regard either to the sacred obligations of treaty or the long-established principles of international action and honor; which chose its own time for the world, and then, without warning, suddenly, stopped at no barrier, either of law or of mercy; except a single continent within the field of blood—not the blood of soldiers only, but the blood of innocent women and children and of the helpless poor; but now stands balked, but not defeated, the enemy of four-fifths of the world."

Time to Step Forward
Hon. W. R. C. Taylor, minister of agriculture, says the time has come for the dairymen of Saskatchewan to take a step forward. For the last ten years they had been preparing for this step and now it was their duty to take it.

"Tea and Coffee Interfere with Digestion"

says a well known authority.

Many who use tea or coffee, not knowing that it aggravates stomach troubles, could still enjoy a delicious hot table beverage and escape harmful effects by a change to the wholesome, pure cereal drink—

POSTUM
"There's a Reason"

English Homes Overcrowded
Four Million Persons on the Island Living Under Unsanitary Conditions

Mr. Douglas Eyre of Oxford House, Bethnal Green, says that a million of our fellow creatures in this country were living in overcrowded conditions. In London there are three million people living in eight in a room, and twenty-six thousand, six to a room. Of London's population 29 per cent. at least lived under lamentable conditions. The country needed half a million more houses to replace those that were insanitary, three hundred thousand to undertake the deficiency in building in the last seven years and seven hundred thousand to provide for the increase in population. This was equivalent to the erection of 11-2 million tenements, or 71-2 million new rooms. In Bethnal Green, forty thousand out of the population of 130,000 were living under insanitary and overcrowded conditions. The houses possessed five condemned areas of which Brady street—the most notorious—had a population of 1,500. These conditions were known twenty-seven years ago, but the attitude of the government was that parents were shown by their requiring Bethnal Green to find the money itself.—London Times.

BLOOD-MAKING MEDICINE

It took centuries for medical science to discover that the blood in the body is not made by the liver, as the blood was always abundant, rich and pure, very few people would ever think of it. It was not until the 19th century that an instrument was invented for measuring the red matter of the blood. Then doctors could tell just how anemic a patient had become, and with medicine to make new blood, the patient's life was saved.

All the blood in the body is nourished and kept rich and pure by food taken daily, but when, for any reason, a person is run down and cannot eat, the blood is impoverished, the food to keep the body in health then a blood-making medicine is required. The simplest and best of blood-makers suitable for home use by anyone, is Dr. Williams' Pink Pills. When a person takes these pills it takes their good effect is soon shown in an improved appetite, stronger memory, better digestion, and an ability to master your work and enjoy leisure hours. For women there is a prompt relief of prevention of ailments which make life a burden. As an all-round medicine for the cure of many of the weak, watery blood no medicine discovered by medical science can equal Dr. Williams' Pink Pills.

You can get these pills through any dealer in medicine, or by mail for 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The Wide Margins

Food and Victory to Be Gained by Co-operation of All

Herbert C. Hoover, U.S. food administrator, says that the world's food supply has caused the growth of a vast mushroom of speculation and extravagance in the use of living. Last year the farmers received \$150 per bushel for their wheat, and a prominent dealer bought their flour based on over \$250 wheat for a large part of the world's wheat. These wide margins are not confined to wheat alone.—Banker Magazine, September.

A Remedy for Bilious Headache.

To those subject to bilious headache, Dr. Williams' Pink Pills are recommended as the way to speedy relief. Taken according to directions they will cure irregularity of the stomach and so act upon the nerves and blood vessels that the pains in the head will cease. There are few who are not at sometime subject to biliousness and familiar with its attendant evils. Yet none need suffer with these pills at hand.

The Man Worth While

The Only Time That This Hero Cried

"While there is none of the romance that the magazine writers and story spinners have woven around our work, yet life is not half so drab as it was in the days of my boyhood in the old hospital, writes a V.A.D. nurse, who before going overseas served for two years in one of the big Canadian city hospitals."

Sister Rose—who has charge of the next ward told us touching story that has all the elements of tragedy and romance in it. She says that a young soldier in the front line suffered torture from a gaping wound in his side and yet never whimpered. He was always cheerful. One day the Sister said to him, "Do you ever have a good cry all your life when you are alone?" "Ever," he said, "what'd be the use. You must keep smiling." And his face suddenly altered as he said: "Oh, but I did cry once. I'll tell you. I got a letter from my old Dad telling me to come home as soon as I could, as there was an old man who could still do a day's work and who would never let me want for anything as long as I lived. I cried."

"These are the little things that happen now and then and set you thinking. When I go off to the front, I'm going to see that boy. He is worth while."

Goats Thrive Well in Alberta
For the first time on record a number of goats were offered for sale on the Calgary market where they were the centre of interest. They were sent by a farmer whose place is situated between Calgary and sixty miles northeast of Calgary. This farmer brought a small herd of Angora goats to Alberta some three years ago, and is well satisfied with the results he has had with them.

Proprietors**The War in the Kitchen**

Decision of the War a Question of Food Supplies

In every attempt to save food materials—and such an attempt should be made in the preparation of every meal, whether by the housewife at home or the chef in the hotel or restaurant—certain facts should be kept in mind: "Our problem is to feed our allies this winter by sending them as much food as we can. Food is the concentrated nutritive value in the least shipping space. These foods are wheat, wheat, pork, lard, butter and sugar. Our solution is to eat less of these and more of other foods of which we have an abundance and to waste less of all foods." The language is that of the United States food administration.

The other side of this—the side we have been overlooking too generally—is that the time for all who can afford to do so to eat many of those things that we have formerly regarded as luxuries. "Use more chicken, fish, hare, rabbit, duck, goose and egg dishes of all kinds. This will not only add attractiveness to the table but will allow those other foods of concentrated nutritive value to be sent to our allies in France. Not only should there be no waste but careful thought should be used in the preparation of each meal, to the end that the selection of foods shall conform to the needs of the unprecedented situation created by the great conflict. Important engagements of this war are to be fought in the Canadian kitchen.—Brandon Sun.

Heating of Sleeping Cars

Canadian Northern Railway Using New Device to Secure Uniform Temperature

The Canadian Northern Railway has been experimenting for a considerable time to secure uniformity of heating throughout the different periods of the day in its sleeping cars.

One car has been fitted with a thermostat device, and this, it has been proved, can be operated with complete satisfaction. Uniform temperature is maintained throughout the day, and a uniform, though lower, temperature, during the hours of slumber.

Minard's Liniment Cures Garget in Cows

The Power of the Kaiser Must Be Broken

It is a curious circumstance that heretofore the leaders of all mutinies, except that in Russia, have been anxious to deal gently with their officers. Not so in Germany, for in the revolt of the four battleships against its grinding, brutal and harsh naval discipline one captain was thrown overboard and the fate of the other officers remains so far uncertain. It is it any wonder, then, that such a revolt should be organized when as illustrative of German theories, the Kaiser, without any legal inquiry, without even a drunken court martial, could of his own will decree that one out of seven mutineers should be hanged and others be sentenced to years of imprisonment? Such is the autocracy of the world is fighting, as one of the most pregnant illustrations that its doom is sealed is that afforded by the attempt to secure peace by the mutiny aloft.—New York Herald.

Fit Men Only to Go to Front

Canadian Soldiers in England Divided Into Fourteen Stages of Physical Condition

Soldiers in training for active service or active combat are held in reserve, are most carefully inspected as to their physical condition. Only men in the category, technically known as "A-1" may be withdrawn from the reserves to serve in the trenches in France. However, pressing may be the call from the front for reinforcements.

Canadian troops in England are divided into fourteen categories, or stages of physical condition, as follows: A, five categories; B, three categories; C, three categories; D, two categories; and E, one category. Thus, when the call comes for reinforcements at any time the men in the categories are not available. However, pressing the call may be, all the men to go forward must be drawn from category "A-1."

The No Indemnity Cry

Information has reached Washington that the Germans are removing the textile looms and machinery from the mills in southwestern Belgium. They intend to be destroying what cannot be shipped into Germany. Will the most enthusiastic Socialist cry against this? Will any peace could be just which did not require the despoiler to restore these things? The men and women, and men again have the means of earning their living when the war is over.—Buffalo Express.

The Cheapness of Mother Graves' Worm Exterminator puts it within reach of all, and it can be got at any drugstore.**Fixing Food Prices**

Wealth of the Nation Produced by the Farmer

Recently thirty-five thousand wage workers petitioned congress for control of food prices. Yet this city, with many others, is being thronged by her commercial channels by labor. The farmer has been made exceedingly the conditions that allow food sharks to manipulate our markets. If we are to have a fair price, we must see that congress may make to completely and forever end such manipulation. The farmer has no money and no fix a price on his chief ingredient, labor, would only hamper the farmer and compel them to sell their time at prices controlled by the whims of the market.

It seems strange to me that men of ability cannot see that such a move would not only restrict production, but would of all laws be most unjust. The Civil war is said to have been to free the slaves, and America's object in this war is to restore and preserve democratic liberties. Would the fixing of prices, without the fixing of wages, be democratic? One may sell his time in the form of crop, while another sells his by his home. The farmer takes all the chances and uncertainties in crop production, while the latter is not affected and is carefree.

But, you say, farmers are getting rich and riding around in automobiles. My dear city dweller, allow me to say if the farmer idled away his time as many of you do and had no other means of earning his money, he would have to beg for his food. He produced the money that bought the automobile and the modern home of yours, and he pays for your good clothes and all your outgoings. If he goes down the wrong street you step aside to allow the traffic to pass. Now don't say this is a lick at the farming man, it is not! Excepting the garden truck that grows in the back yards, no city dweller is self-sufficient in food. This applies to the banker and the baker as well as the preacher and the piano player.

There is nothing mysterious about the present food shortage. The present food shortage is a result of the fact that the farmer has been hounded by the European war has hastened its coming. In entering the war with foreign nations we should feel that we are being guided by a kind Providence. We belong to a united nation, but there is one thing sure, when the war ends agriculture will be restored to her former prestige.—Perry Clawson, in Hoard's Dairyman.

Minard's Liniment Cures Distemper.

Sold Estate to Tenants

Lord Scarborough has sold his estate in North Lincolnshire, extending over 8,600 acres. Twenty farms go to the tenants privately. The sum raised being close upon 102,000 pounds. The remainder of the property was offered at public auction, and only seven lots remained unsold, and these will probably be disposed of privately. The estate, which included grounds, woods and home farm, the timber being valued at 678 pounds. The Georgian house was built about 1760 out of the remains of the splendid Tudor mansion erected early in the reign of Queen Elizabeth by Sir Christopher Wray, speaker of the house of commons and Lord Chief Justice of the Queen's bench. There is a fine tapestry in the hall, the sum raised being close upon 102,000 pounds. The remainder of the property was offered at public auction, and only seven lots remained unsold, and these will probably be disposed of privately. The estate, which included grounds, woods and home farm, the timber being valued at 678 pounds. Increased Butter Production Film Tells Fortune Of Disabled Soldiers

Manitoba Producing More Creamery Butter Every Year

A gratifying increase in the production of creamery butter in Manitoba is being made this year. Up to October 6 a total of 50 carloads of creamery butter had been exported from the province, and the end of the year will see almost one hundred carloads sent out. This compares with a total of 68 carloads for the full twelve months in France. However, present this butter is selling at 42 cents a pound at the point of production.

Some districts of the province are showing a remarkable increase in production. For instance, five creameries have run all season between Lakes Manitoba and Lake Winnipeg, where prior to this year there was only one creamery. Each of these five factories has done a nice season's business, and between them will sell close to half a million pounds of high grade and high priced butter. This milk is bringing into that part of the country upwards of \$200,000, and now that so many of the farmers there have the nucleus of a dairy herd, they may be depended upon to increase the size of these herds right along.

In two or three of the older dairy districts this has already been done to such an extent that individual rural creameries will make about half a million pounds of butter each this year. When the industry reaches this stage, the costs of cream gathering and manufacturing are reduced almost to a minimum.

One Way to Beat Bugs

A farmer says the Ridgeway Dominion claims to have found a cure for potato bugs by ten years experimenting in Colorado. His plan is to plant a row of potato plants in each hill of potatoes. He says that the bugs will shut in every time, and that for ten years he has been successful in raising potatoes where others have failed.

The Avenge Hand!

Germany's peace overtures are as deadly as poison gas. They are no more friendly than submarine attacks. They have the same quality of treachery. The allies would be simple-minded fools if they should suspend for a single second their preparations to demolish Germany in order to listen to her peace proposals. It is perfectly evident that the robber will not disgorge until forced to do so. The necessary force is now assembling. There is no escape from the avenging hand. Let it be raised in might, and let it strike home!—Washington Post.

Worth Protecting

A good article is worthy of a good package. A rich, strong, delicious tea like Red Rose is worth putting into a sealed package to keep it fresh and good.

A cheap, common tea is hardly worth taking care of and is usually sold in bulk.

Red Rose is always sold in the sealed package which keeps it good.

A. A. Shearer, Blairmore

A number of local Oddfellows
journeyed to Coleman on Monday
night, to attend the regular meet-
ing of Coleman Lodge. During
the session J. A. Tully, of Calgary,
deputy grand master, paid an official
visit, and for his benefit the
third degree was conferred on two
candidates.

R. C. Green, foreman carpenter
with the West Canadian Collieries,
met with a very painful accident
on Monday, when a falling wrench
hooked and tore away part of his
nose, necessitating several stitches
being put in and his laying off for
several days.

W. J. BARTLEY, Proprietor.

Blairmore, Alta., Fri., Nov. 30, 1917

The Food Controller is well aware
that in many homes of the Dominion
very considerable economies in food
have been effected voluntarily since
the war began. In thousands of other
homes high prices of food have com-
pelled the utmost economy in selec-
tion and in apportionment to the va-
rious members of the family. The
Food Controller aims that, as far as
possible, there should be sufficient
and suitable food for the people of
Canada at prices which are no higher
than are absolutely necessary under
present conditions of supply and cost
of production.

Seventy percent of the people of
Canada are as thrifty and careful as
any in the world. They economize but
little or no more than is necessary
to maintain their physical strength.
The Food Controller does not ask
these people to reduce their con-
sumption below the amount neces-
sary to maintain their efficiency, but
he does ask them to substitute other
foods, as far as possible, for wheat,
beef and bacon which are needed by
the soldiers overseas. There is still
a considerable minority of the people
of Canada who can and should re-
duce their consumption of food by
simpler living. Substitution may
involve some sacrifice but surely the
men at the front deserve the food
such sacrifice should be made. Elim-
ination of waste is a patriotic service
in which the most humble and most
prosperous can contribute. It is no
exaggeration to say that every ounce
of waste is a contribution towards
starvation.

A Great Drawing Team

By Augustus Bridle.

A good drawing team is just as much
of a joy to the man that owns it as it
used to be in the bush-log days. We talk
a good deal—some of us—about the great
horses we need to handle the ribbons over
in the bush, lifting out great loads of
elm logs, sometimes 1,500 feet or 2,000,
sometimes more according to the man
who was telling it, from the stump to
the skidroad and the concession line.

Certainly some of those teams could
draw, and surely some of their drivers
did need to be able to talk about it. But
there are more good average hauling
teams in the country now than there
were in the bush days. Farmers have
gone in for specializing on draughts and
roadsters, because they understand that a
poor team is bad economy when work
has to be done in a hurry. Getting stuck
with a load in the fields is a dead waste
of time and of temper. We used to be
stuck often in the old days with some
of those poor teams picked up any old way
at an auction sale. But a good span of
Clydes or Percherons nowadays is a real
piece of insurance against wasting time
with stuck loads. The only thing that
happens in that line with such horses is
broken harness or a snapped double-
tree.

Of course a good deal depended on the
driver as it does now. One of the best
drawing teams ever known in an Ontario
county would pull like a tractor engine
for the boss, but when it came to the
hired man they saw-sawed and jumped in
the collar like a pair of balky Texas steers.
When the boss pulled the lines over
them and yelled, "Git down together!"—
they got down, those Bob Hunters, and
lifted the load—leaving, how they could
lift it! No matter what the load was,
grain, or logs, or gravel, it came out of
the hole on to the high road, just by the
simple knack of getting down together.

Just now the greatest hauling team
ever known in Canada are engaged in
lifting the biggest load that a team ever
stood in front of. The load is
\$150,000,000 of Canadian Victory
bonds.

That's a tremendous load. The load
is there all right. Canada has the money;
twice as much, ready to pile up for vic-
tory. It's a matter of lifting the load.
It's a matter of what team is to do it,
and who will be the driver.

What's the best team for this job?
The Canadian Farmer and the Govern-
ment of Canada.

If these two can't lift a great part of
that load, you might as well leave it
alone.

Who is the driver?

A great boss named Victory,
Victory, VICTORY!

The Fighting Men await your answer

HOW many Victory Bonds have you
bought?

Have you put yourself to any real in-
convenience to buy Victory Bonds?

Have you denied yourself some purely
personal gratification, so that you could
invest the money saved in Victory Bonds?

Have you realized the urgent need for
personal self-sacrifice to make the Victory
Loan a great success?

Until you have bought Victory Bonds
to the very limit of your ability, you have
not done your duty.

Campaign Closes Saturday Night What Answer Will You Give?

Issued by Canada's Victory Loan Committee
in co-operation with the Minister of Finance
of the Dominion of Canada.

SUBSCRIBE
TO THE CALGARY HERALD
ALBERTA'S GREATEST DAILY

What to Buy—and Where

THE metropolitan newspaper of today aims to carry ALL the news.

Ranking equal in importance to the news contained in its reading columns is that which is found in its advertising columns. Both are of interest to the reader. THE CALGARY HERALD IS THE ONLY NEWSPAPER PUBLISHED IN CALGARY WHICH CARRIES THE FULL STORE-NEWS ANNOUNCEMENTS OF THE BIG STORES. Proportionally it is patronized by the other merchants who have good goods to sell. To the buyer in and out of town this is an important factor in the choice of a newspaper.

SPECIAL
TRIAL SUB-
SCRIPTION
OFFER
4 MTHS. \$1

The regular subscription price to The Herald is \$4.00 a year by mail, but if you cut out this advertisement and send it with your name, P.O. address and ONE DOLLAR (\$1.00) to the Circulation Manager, The Herald, Calgary, you will receive The Herald daily for four months.

OF LOCAL AND GENERAL INTEREST

George W. Holt, of Bellevue, is reported killed in action.

Rev. J. Fulton went to Calgary on Sunday night and returns this week end.

Pte. Peter Montalbetti returned to Calgary last week end, after a week's stay in The Pass.

George Hutchinson, of Pincher Creek, has been killed in action, according to Monday's reports.

Mrs. Timothy Murphy, of Lethbridge, is visiting her parents, Mr. and Mrs. Howe, for a few days.

Hon. A. G. McKay will occupy the Liberal platform at Macleod tonight, assisted by D. R. McIvor.

One of our exchanges comments on the "good work being accomplished by Canada's food controller."

Miss Maggie Patterson, returned Monday morning from a visit to her sister, Mr. McKinnon, at Lethbridge.

A farewell party to Pte. J. C. LeMotte is being given by a number of his friends at the home of Mrs. J. Gibson tonight.

Word has been received that Rev. Mr. Kay, formerly in charge of Presbyterian mission work at Crows' Nest, has been killed in action.

A grand masquerade ball will be given in the Workers' hall at Bellevue, under the auspices of the Red Cross, on Friday night of next week, which promises to be well patronized.

Major Hry, of the Edmonton Salvation Army Depot, delivered a lecture on the subject of "Twice Made Men" at Central Union church on Saturday evening last to a fair sized congregation.

Large congregations turned out at the morning service at the local Anglican church on Sunday morning, and at St. Alban's, Coleman, in the evening, to hear the Rev. Mr. MacMichael, of Pincher Creek.

Rev. C. C. MacLaurin, of Calgary, superintendent of Baptist missions, occupied the pulpit of the Union church on Sunday morning and evening last and delivered forceful discourses on the subject of missions.

The case of the Lethbridge microfilm factory against the city of Lethbridge for damages resulting from the flooding of the factory basement last spring, was dismissed by Justice Ives. The action was to recover \$4,000.

D. R. McIvor, the Liberal candidate for this riding for the forthcoming election, will likely address a public meeting in the Blairmore opera house during the coming week. Watch out for the date and don't miss hearing McIvor.

A meeting of the local committee of the Patriotic Fund will be held in the office of The Enterprise on Monday night next, and the public are reminded that Patriotic Fund meetings are not private, but that dependents and contributors are cordially invited.

In a horrible accident which happened on the farm of Daniel McMillan, 18 miles from Taber, Mrs. McMillan and her year old baby were so badly burned that both died within twenty-four hours. Mrs. McMillan was lighting the kitchen fire to prepare supper, and poured kerosene on the blaze. The can of oil caught fire and enveloped the woman in flames and the baby lying near. The baby was burned to death on the spot and the mother survived only a few hours. The home was completely destroyed.

W. Howe, of Faith, is spending a while with his family here.

Tomorrow will be the last day of the Victory Loan campaign.

Sapper Frank Capron, of Blairmore, has been wounded in action.

S. McVicar, of the North American Collieries, Drumheller, was in town last week end.

Once in a while a man's makeup is so arranged that the part he talks with is bigger than the part he thinks with.

J. C. LeMotte goes to Calgary on Sunday night, where he dons the khaki as a member of the 78th Alberta battery.

A memorial service for the late Private Seth Thornley was held in the United church at Pincher Creek on Sunday evening last.

The British house of commons by a vote of 209 to 171 adopted an amendment to the electoral bill disfranchising conscientious objectors to war.

Miss Vera M. Brown, of the Frank Military Hospital nursing staff, took ninth place in the Calgary Alberta subscription contest, securing a prize of a \$100 order on the Calgary Furniture Store, and eighth special prize of \$50 cash.

Five years at hard labor in the army disciplinary barracks at Governor's Island was the sentence of a court martial in the case of Charles Gerlach, of Brooklyn, second officer of an army transport, because he refused to serve as a lookout for submarines.

S. T. Marshall and Harry Johnston, after addressing meetings in the interest of the Non-Partisan League at Blairmore and Coleman, returned east to Pincher Creek on Saturday. We understand that Mr. Johnston will don the khaki within the next three weeks.

Two years' imprisonment was the sentence imposed upon Alpine McGregor at Fort Arthur, the first man arrested for failure to register under the Military Service Act. After being arrested, McGregor was given every opportunity to report to the military authorities, but refused.

An amendment to the Town Act was passed in 1917, particulars of which are of interest in view of coming municipal election. In addition to parties hitherto entitled to vote, it also permits the wife, husband, son or daughter of such party, as the case may be, to also vote, provided such wife, husband, sons or daughters are residents of the town and of the full age of twenty-one years.

The provincial department of agriculture announces that it has added to its administrative services the office of poultry market commissioner. The purpose of the office is to develop the poultry industry for maximum efficiency in the production and marketing of poultry products, as well as for the increase of farm revenue from the larger production of eggs and poultry of improved quality.

S. T. Thornley, of Pincher Creek, has been killed in action. Private Thornley joined the 13th O.M.R. and had been in the trenches eighteen months. He was an employee in the office of the Pincher Creek Echo prior to enlistment. His brother Joseph, also a printer and former employee of The Enterprise, went overseas with the 192nd. Excellent reports had been received of Private Thornley's soldierly qualities and big things from him were looked for.

Jack Griffiths, of Macleod, has been killed in action.

The hardest tumble a man can take is to fall over his own bluff.

Last year the British nation spent nearly \$240,000,000 on tobacco.

FOR SALE—A few Full-Bred Plymouth Rock Roosters. Apply to The Enterprise.

Everybody readily agrees with the man who doesn't think much of himself.

The postoffice at Pearce was broken into on Tuesday night and robbed of \$137 cash.

The British army absorbs in the way of clothing supplies more than eighty miles of flannel a day.

Today is being observed in Lethbridge as a public holiday in the interests of the Victory Loan.

Pte. Arthur Cummings, who had been visiting his mother, Mrs. Hueston, here, returned to Okotoks last week.

Gus Becken, the one-time popular booze chemist of the old Blairmore hotel, came down from Crows' Nest last night on a brief visit.

Nearly fifty years ago, Jules Verne, the famous French writer of fiction, forecasted submarines, zeppelins, tanks, and the use of shells filled with poisonous gas.

Southern Alberta has considerably over-subscribed its allotment for the Victory Loan. Southern Alberta has never been behind in any such undertaking.

Morency (explaining the ins and outs of an automobile): "This controls the brake. It is put on very quickly in case of an emergency."

Rahal: "I see. Something like a kimono, eh?"

While the parents and two children of an Innisfail family were attending a Chautauqua session on Monday night of this week, their home was destroyed by fire and five of their children were cremated.

Harold Morris, civil servant at Ottawa, charged with refusing to register under the terms of the Military Service Act, was sentenced to two and a half years imprisonment in Kingston penitentiary. Morris was employed as a clerk in the Lands Branch, department of the interior.

J. L. Parker has assumed the superintendency of the Diamond Coal Company's mines near Lethbridge, which have just been acquired by an eastern company, who will open them up immediately, after a cessation of operation lasting about four and a half years. The new company is said to be well capitalized. The plant is now being got in shape and a number of men are at work cleaning up and making new openings at River Bank. The company hopes to be shipping coal early next month.

A sitting of the District Court was held in Blairmore on Wednesday of this week, presided over by Judge McNeill. Two cases were disposed of: Hogan versus MacKenzie and Ede versus Little, judgment for plaintiff being given in both cases. The former was a suit for rent. The latter action was taken by T. Ede for the recovery of commission on a deal put through some years ago by which some of Joseph Little's property was transferred to a purchaser. After hearing the evidence, judgment was rendered in Mr. Ede's favor for the amount of his claim, plus interest on principle and costs, amounting to over \$120.00.

Viccount Reading, lord chief justice of England, has been created an earl, and Lord Northcliffe a viscount, according to an official statement issued.

The Red Cross dance at the opera house on Tuesday night proved one of the greatest successes of the season. Over one hundred and sixty couples were in attendance.

James Young, a returned soldier, is held by the police at Cranbrook, charged with the murder of William Hall at Bull River. Young has confessed to the murder.

Canada's Victory Loan campaign closes tomorrow (Saturday). From reports at hand, it is likely the response to the 15-cent dollar appeal will exceed three hundred million dollars.

The name of A. Hatfield, of Coleman, is contained in last week's casualty lists as suffering from gas. Pte. Hs field is son of Mr. and Mrs. J. Hatfield, of the Coleman opera house.

Calgary reports that amongst the scores of Chinamen that have been conscripted not one has put in any claim for exemption. The yellow streak appears to have vanished from the yellow men.

FOR SALE—An Electrically Operated Washing Machine, in perfect condition. Original cost \$97. Will be sold reasonable for cash. Call up The Enterprise for particulars.
